

Only Three Things Matter When You're Sourcing Insurance:

1. The right policy for YOUR unique circumstances
2. The right price relative to YOUR risk
3. The right service and expertise for YOU

The good news is you no longer have to spend hours trying to marry these variables.

We'll do it for YOU PROMPTLY and free of charge.

E-Quine
Insurance Services Pty Ltd
If it's worth raising and feeding, it's worth insuring. Protect your valuable investment.

Welcome To E-Quine Insurance Services Pty Ltd

New Thoroughbred Insurance Service launched

[Click here to read the announcement that featured in the Breeding & Racing Magazine](#)

The benefits to you of using E-Quine Insurance Services Pty Ltd (E-Quine) are many and varied. E-Quine are an independent broking outfit that does the "shopping" for you by sourcing quotations from its network of specialist underwriting agencies and brokers, who are supported by the world's leading bloodstock and livestock insurers. Once you inform us of the type of insurance cover you are seeking, we identify those specialist underwriting agents and brokers who are able to arrange the cover that you are looking for. We simply capture the details of the animal(s) to be insured only once, using our specially designed template accessible via our website, and our system will filter your request and forward it to the respective agents and brokers. A solitary point of input saves you time and money. If you had knowledge of who to contact and the various policy extensions/endorsements available through negotiation, you could do this yourself, but it requires time, money and specialist knowledge.

E-Quine's professional, expert and specialist service will not cost you anything.

E-Quine is not contractually obligated to any insurer. Therefore we are not influenced to sell you the insurance product that a supporting insurer expects of an underwriting agent, in terms of an exclusive contractual arrangement. In this instance, by definition, the agent is acting on behalf of the insurer. Similarly, we do not receive any remuneration from insurers in terms of profit share or volume bonus arrangements. We act with your best interests in mind - we focus on the client, insurers focus on the risk.

E-Quine aims to restore to bloodstock and livestock insurance the role of a conventional broking service that provides you the freedom of choice, whether it be product selection best suited to your needs and circumstances, or identifying a placing broker and an insurer. We are not an insurer, we do not have cover and we do not issue insurance policies.

E-Quine offers a spectrum of expert and professional services to protect your bloodstock & livestock assets, including:

- identifying & analysing your risk/exposure;
- identifying risk factors & quantifying possible incidence;
- re-evaluation on how to reduce or eliminate your risk/exposure;
- decisions to self insure (i.e. retain risk) or transfer it to an insurer;
- from our selected network, seek competitive quotations in terms of price and coverage to suit your needs;
- ongoing risk evaluation and monitoring your needs.
