

ARE YOU PLAYING RUSSIAN ROULETTE WITH YOUR HORSES?

**NOW THERE IS NO EXCUSE.
PUT A STOP TO EXPOSING YOUR HORSES TO THE
DANGERS OF CAST RELATED INJURIES.**

The very best in Anti-Cast Safety Equipment is now available in the Asia/Pacific region for the first time.

UP-RIGHT® ANTI-CAST SAFETY STRIPS are already installed in many of the Studs, Stables, Veterinary Hospitals and Auction Houses in Ireland, the UK, Europe, Canada and the USA.

INCREASE SAFETY - GUARD AGAINST INJURY.

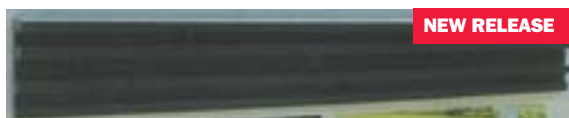

UP-RIGHT® Anti-Cast Safety Strips

Proven Technology that helps most horses get to their feet by themselves when "CAST" – especially when assistance is not available. Surveys show that 25% of horses injured while cast end their careers due to loss of use or loss of life. Frequently, severe damage results to the hip, pelvic and leg areas, accompanied by stress and fatigue.

Helping the horse to help itself

The UP-RIGHT® Anti-Cast Safety Strips, The MAX™ Strip and The ASSISTANT™ Strip are patented strips designed to give horses a safe gripping surface for their hooves. Horses can safely push their bodies away from the wall regain their feet and stand. Both strips are veterinarian approved.

For Permanent & Temporary Stalls

Lasting quality • Easy installation • Pliable yet durable materials • Easy to cut & drill • Each strip is 915cm long (3ft) • High impact, water resistant • Environmentally sustainable

ASSISTANT™ Strips

Continuous 4 row design ideal for foals, weanlings and yearlings. Colour: Black

MAX™ Strips

Over 3000 purchase points and angles in a 12x12 stall. The ultimate gripping surface for maximum protection. Colour: Black (other colours available special on order)
