WORLD CLASS NUTRITION | WORLD CLASS RESULTS

KER_x™ EO-3™ Omega 3 Supplement

A rich source of the long chain omega-3 fatty acids DHA and EPA for performance and breeding horses in a palatable liquid form.

- > Aid sub-fertile stallions and mares
- > Aid mares in passive transfer of antibodies to the foal
- > Reduce joint inflammation
- > Assist in the management of bleeders
- > Enhance immune function
- > To support horses at risk of allergies
- > Research proven to increase blood levels of EPA and DHA

**Omega-3: Important for you,
even more important for
your horse**
