HORSEPOWER

Horsepower Spellets

A long time favourite with many major studs, Horsepower Spellets are formulated to be used in conjunction with a grain based diet. This 25% protein supplement fortified with essential minerals and trace elements, now come with the added benefits of Hydrated Zeolite and Fulvic Minerals. These naturally occurring bioavailable nutrients include over 50 different elements to assist in good health.

Horsepower Stud Supplement

Providing the essential nutrients at the most critical times. For those crucial months from weaning through to yearling prep, Horsepower Stud Supplement provides the essential amino acids as well as trace elements and minerals that are so crucial to optimum growth and development. With 32% protein from organic product, simply add 400g per day to supplement the diets of weanlings and yearlings.

Horsepower Spelling Horse Minerals

When the pasture is lacking. With its unique "self crusting" property, Spelling Horse Minerals is an ideal supplement for horses grazing on pasture in the many mineral deficient areas of Australia. It provides essential trace elements and minerals to the pregnant broodmare, ensuring peak nutrition for the developing foal BEFORE birth.
