TROUBLE SHOOTING

15 RACTRACKS WORDWIDE

## For the Design & Construction of Equine Facilities Worldwide

### RACETRACKS ♦ ARENAS ♦ TRAINING GALLOPS

The Proinn Group is an Australian-based company that undertakes diverse projects on a worldwide basis, specialising in both the design and construction of equine facilities.

As the Austral-Asian and Middle Eastern Licensee for Polytrack we have been honoured to be selected for many prestigious projects, for example; **Singapore Turf Club** racing and training surfaces, **Dubai Equestrian Club's** main competition arena, riding trail for the **2008 Olympics in Sha Tin, Hong Kong** and the arenas for the **2010 Youth Olympics, Singapore**.

In both private and competition facilities, training and racing, our aim is to produce the best surface possible for the horse to perform on. We continue to dedicate both time and resources to our research and development and we hope that this, coupled with surface monitoring and invaluable feedback from our clients, will help us to continue to develop facilities that will provide benchmarks within the industry.

“Producing world class facilities within budget and program”
